		Quart - 32 oz.	\$30
		Gal. - 128 oz.	\$85

RC PRODUCT NO.	DISCRIPTION	CONTAINER SIZE	PRICE
611	CARBODIIMITE CROSSLINKER (Our “Carbo” is a great every day, standard crosslinker used to give the coatings the strength and performance characteristics required for most applications. In most applications, add 5% to coatings and use within a 6-10 period hours. (Times will vary depending on temperature and humidity). Coatings can be re-crosslinked 1 or 2 times before discarding. Always store in original container. One ounce of crosslinker will crosslink 32oz. of coatings @5%	4 oz.	\$16
		8 oz.	\$25
		Quart - 32 oz.	\$80
612	ISOCYANTE CROSSLINKER (The “Iso” crosslinker is a reactive type crosslinker typically used in topcoats where a high performance coating is needed. (Steering wheel, bolsters, boat cushions...etc.) Adding Iso to your coatings will greatly increase the scuff and chemical resistance to the coatings. The reaction takes place when air and moisture come in contact with the crosslinker. In most applications, add 5% to coatings and use within a 6-10 period hours. (Times will vary depending on temperature and humidity). It is not recommended to re-crosslink coatings with Iso mixed in. Once a bottle is first opened, we recommend it be used within a two-week period. After two weeks, the crosslinker will most likely become ineffective. One ounce of crosslinker will crosslink 32 oz. of coatings @ 5%. Always store in original container.	(4 Pack) 1 oz.	\$26
		2 oz.	\$11
		4 oz.	\$16

Always store your crosslinkers in a cool dry environment away from extreme heat and cold. Make sure the container is closed tightly after every use.

Additives & Specialty Items

RC PRODUCT NO.	DISCRIPTION	CONTAINER SIZE	PRICE
619	SILK TOUCH – FEEL ADDITIVE FOR TOP COATS Add up to 5% into FINAL topcoats to increase the hand feel of the coating. SILK TOUCH will create a smooth silk-like feel. Do not add into intermediate coats, as it may jeopardize adhesion.	8 oz.	\$15
		Quart - 32 oz.	\$32
620	SOFT TOUCH – FEEL ADDITIVE FOR TOP COATS Add up to 5% into FINAL topcoats to increase the hand feel of the coating. SOFT TOUCH will create a smooth soft feel. Do not add into intermediate coats, as it may jeopardize adhesion	8 oz.	\$15
		Quart - 32 oz.	\$32
621	RUBBER FEEL – FEEL ADDITIVE FOR TOP COATS Intended to be used over door and console trim parts. Add BETWEEN 10-15% into FINAL topcoats to increase the hand feel of the coating. Rubber Feel will create a rubber like feel. Add to final coat only. Do not add into intermediate coats, as it may jeopardize adhesion.	8 oz.	\$15
		Quart - 32 oz.	\$32
622	SLICK – FEEL ADDITIVE FOR TOP COATS Add BETWEEN 10-15% into FINAL topcoats to increase the hand feel of the coating. Slick touch will create a silicone-like feel. Add to final coat only. Do not add into intermediate coats, as it may jeopardize adhesion Not for use on steering wheels.	8 oz.	\$15
		Quart - 32 oz.	\$32
624	HIGH COVERAGE WHITE BLEND Use as a basecoat color to block out or cover darker areas that need to be colored a very light color. This is intended to reduce excessive film build up. This product must be topcoated.	8 oz.	\$18
		Pint - 16 oz.	\$30
		Quart - 32 oz.	\$45
625	HIGH COVERAGE RED BLEND Use as a basecoat color to block out or cover darker areas that need to be colored a very BRIGHT red color. This is intended to reduce excessive film build up. This product must be topcoated.	8 oz.	\$18
		Pint - 16 oz.	\$30
		Quart - 32 oz.	\$45
626	THICKENER Used to change viscosity or thickness of water based coatings. Always add small amounts at a time only to small amounts of coatings. Mix in well and stir slowly. Add to basecoats and topcoats to be wiped on.	2 oz.	\$18
		4 oz.	\$26

HEAT CURE REPAIR COMPOUND

AKA "VINYL REPAIR COMPOUND"

DEEP FILL
SOFT FLEX
STANDARD
THICK
Sizes: 4oz., 8oz.

COLORED
Size: 2oz.

665	DEEP FILL – HEAT CURE REPAIR COMPOUND Heat Cure Compound. Use for thick molded vinyl and where other deep filling is needed like dashboards and armrests. Compound must still be <i>baked</i> all the way through for proper performance. The key benefit in this compound is its bulk filling properties. Sandable once fully cured.	4 oz.	\$12
		8 oz.	\$20
668	SOFT FLEX - HEAT CURE REPAIR COMPOUND This slightly blue hue heat cure compound is the softest most flexible one we sell. Excellent strength. It grains very well and can handle a lot of heat. Excellent to use where soft leather like feel is needed. Great for upholstery repairs on leather and vinyl. Compound must still be <i>baked</i> all the way through for proper performance. Sandable once fully cured.	4 oz.	\$12
		8 oz.	\$20
675	STANDARD - HEAT CURE REPAIR COMPOUND This is our thinnest viscosity heat cure compound. Compound must still be <i>baked</i> all the way through for proper performance. Sandable once fully cured.	4 oz.	\$12
		8 oz.	\$20
680	THICK - HEAT CURE REPAIR COMPOUND This is our all-purpose, heat cure compound, high viscosity, high Strength repair compound. Compound must still be <i>baked</i> all the way through for proper performance. Sandable once fully cured.	4 oz.	\$12
		8 oz.	\$20

681	COLORED - VINYL REPAIR COMPOUND Heat cure compound must still be <i>baked</i> all the way through for proper performance. Best used as a top layer over other heat cured compounds to give the repair a build in color. Helps identify areas that need more filling during the repair process vs. using only a clear compound. Available Colors: Thickness of this product will be thick like the #680.	2 oz. each	\$12
		Color Chart	

=

BARRIER COAT

This solvent-based sealer is used strictly over cured repair compounds. Once the repair (compound) is complete, apply a coat of Barrier Coat over it to keep any residual oils left down and from lifting up the topcoatings.

FLAMMIABLE

NO AIR FREIGHT

PRODUCT NO.	DISCRIPTION		PRICE
682	BARRIER COAT	2 oz.	\$4.25
		4 oz.	\$7.75

SPRAY TEXTURE

Use to blend in repairs with surrounding areas. Apply with mouth atomizer, Preval or spray gun. Size of droplets is controlled by varying air pressure and distance

PRODUCT NO.	DISCRIPTION		PRICE
690	SPRAY TEXTURE	8 oz.	\$18
		16 oz	\$25
		32 oz	\$42

POWER GEL CA

20-gram metal tube of thick, clear "super glue" *paste*. Use to fill small holes and voids on plastic and non-flexing vinyl. Will not run on vertical surfaces.

PRODUCT NO.	DISCRIPTION		PRICE
692	POWER GEL CA	Each	\$5.95

GRIP KICKER

5 oz. can: Spray light coats over super glue to speed dry time.

PRODUCT NO.	DISCRIPTION		PRICE
693	GRIP KICKER AEROSOL	Each	\$8.95

LEATHER ADHESIVE

Use this water-based product to hold down and bond small cuts and slices. Apply over sueded areas to create a stronger surface to refinish over. Use to apply a sub-patch. This is an *air-dry* product. Lightly sandable. Strong & flexible.

PRODUCT NO.	DISCRIPTION		PRICE
694	CLEAR LEATHER ADHESIVE SEALER	4oz	\$16

LEATHER AND FABRIC GLUE

This white water-based glue works great for attaching leather sub-patches and bonding torn pieces of leather, as well as mixing with repair fibers and filling holes in damaged fabric. It dries clear and remains extremely flexible.

PRODUCT NO.	DISCRIPTION		PRICE
695	LEATHER AND FABRIC GLUE	2 oz.	\$5
		4 oz.	\$7

POWER GEL CA

Re-finishing Training Courses

Training courses are customized to your particular needs. Refinish Coatings has over 25 years of leather & vinyl repair & refinishing experience, along with trained technicians and a chemist, with years experience, who work along side the trainees to teach and pass on their knowledge.

The training programs cover the basic understanding of coating technology and why the coatings perform. We teach the art of color matching either with a color computer or by eye.

We start from the beginning, surface preparation, repair & filling, adhesion, when how to use basecoats & topcoats, application, drying & curing techniques along
With customer presentation.

Our customizable training programs are for any number of days and subjects Contact us for dates, course preparation & pricing.

Refinish Coatings also offers free phone technical support on how to use our products and any of your specialized restoration needs.

1. Select a color from a resource book for us to match.

a. If you have access to a resource book such as GAHH, Detroit or Coast-to-Coast, you can give us the sample information for the color you would like matched and we can make it.

2. Send us the color you would like matched.

- a. Mail in a sample of the color you would like matched - The sample does not have to be leather or vinyl. Just make sure it is the size of a quarter, or larger
- b. Spray a Leneta card with a color you currently use and mail it to us
- c. Be sure to apply 5 -6 coats so we can accurately measure color sample.
