Notice

Refinish Coatings manufactures and sells specialty coatings, repair products, and tools for the leather & vinyl repair markets, small leather goods manufacturing industry, and automotive & aviation upholstery markets. Our industry commonly refers to the color coating applied to leather as "DYE," with in most cases is a urethane coating despite the terminology.

Safe Handling and Storage of our Products

All products marketed by Refinish Coatings are designed and packaged to maintain their properties and application characteristics for up to one year after shipping. This assurance, however, is subject to the condition that the products are stored in their original closed containers. It is recommended that the products exceeding the one-year shelf life date are re-inspected or tested before use.

I.e., there are some exceptions to the one-year shelf life. Contact a technical representative for clarification.

The shelf life of any given product is dependent on the container, storage, and handling. All products should be stored in an environment between 45 degrees Fahrenheit and 85 degrees Fahrenheit. Allowing your products to freeze or heat up excessively will diminish the quality and performance.

If you follow the simple guideline of storing your products in a safe & normal environment. Your product will work better and have a long useful life.

- * Always store your products in a closed container.
- * Keep from Excessive Cold & Heat
- * Keep out of reach of children

***** Stir products well before using!**

The recipient shall be responsible for satisfying the legal requirements of the local public authorities and government concerning environmental legislation, fire risk, and safety & health regulations.

Product Information

RC Premium Coatings * Dyes * Paints

RC Pigment Series

C-Pigments

The C-Pigments are 100% pure pigments. The pigment ratio to clear (either basecoats or topcoats) is 7 - 10% pigments to 90 - 93% clear coat.

Blended Basecoats

Blended Basecoats are a mixture of C-Pigments blended with the proper amount of 600 basecoat. These coatings are a ready-to-mix blend; just match the color to make the desired color and apply to leather, vinyl, or plastic surfaces as usual.

Blended Basecoats can be crosslinked for added performance but are not required. Blended Basecoats should always be top-coated with any of our Premium Top Coats.

Ready-Systems

What is a Refinish Coatings "READY-SYSTEM?"

We define the ready-system as a system that has all of the components incorporated into the product, so all the technician needs to do is stir, match the color (if required), add crosslinker (if required), apply the coating, and dry.

This system was designed to help the technicians have a straightforward system, saving time and money on restoration projects. Our 300 Series Topcoat Blends are an example of a "Ready System."

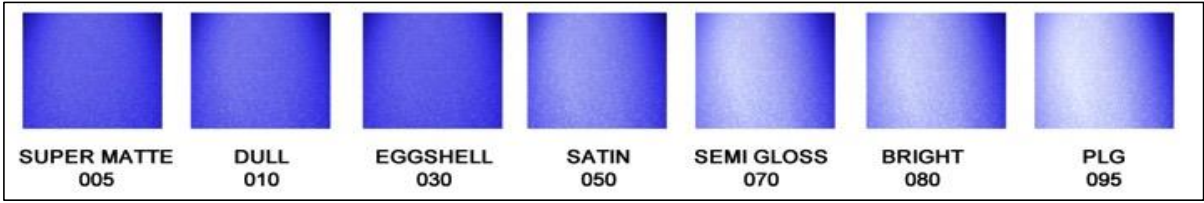

Sampling Program

Refinish Coatings will gladly offer samples to new customers and for new products. Generally, samples are smaller one-time-use products; designed for our customers to test our products before purchasing. (Some specialty items cannot be repackaged for samples)

Samples are free of charge, but we ask customers to pay freight coats.

Premium Automotive Top Coats

Our Premium Topcoats are a unique blend of components designed for maximum performance on Automotive leather & vinyl. The topcoats are a ready-to-spray system. Recommend all of our topcoats be crosslinked with either the 612 or 611 crosslinkers. Pigments can be added by following the mixing ratios outlined in this guide.

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
005	Premium Topcoat -- SUPER MATTE For best results crosslink with 612 @ 5%.	\$ 13.50	\$ 22.50	\$ 28.75	\$ 44.00	\$ 61.25	\$ 110.00

100 SERIES C-PIGMENTS

Concentrated pigments must be added to a clear coat system. Applying these pigments by themselves will result in extremely poor performance. Pigment loading is typically 7 to 10% of the total resin system (Topcoats & Basecoats).

A 10% pigment load is ONE PART "C" pigment to 9 PARTS clear coat (top or base coat).

Code	Description	4 oz	8 oz.	16 oz.	32 oz.	2 - 3 Quarts Each	4 Quarts & Up Each

Starter Kit

102 "C" Pigment Starter Kit

Use our concentrated pigments to make our Starter Colors, AE-2020 colors along with other specialty clear coats & colors. Each pigment color is bottled in a micro tipped plastic bottle with mixing discs for accurate and easy precise measuring. Each kit contains 16 bottles of "C" Pigment.

6 - 2 oz. Bottles

#110, #120, #130, #140, #150, #154

10 - 1 oz. Bottles

#111, #134, #141, #152, #155, #156, #158

#160, #170, #180

Also, 1 cleaning pin for bottle tips, Small Funnel, & Stir Rod.

\$ 125.00

Metallic PIGMENTS

The Metallic pigments are available in three (3) formats -- 100 series Pure, 200 series Rhino & 300 series Pigment Blends
Each Series can be purchased in 90 Silver, 92 Pearl, 94 Gold, 96 Bronze, 98 Copper

Code	Description	4oz	8 oz.	16 oz	32 oz
100	Pure Metallic Pigment (Must be mixed with a Clear Bright Coating) For best results we recommend 095 Patent Leather - Super Bright Gloss @ a 20% pigment loading	\$ 24.00	\$ 40.00	N/A	N/A
200	Metallic Rhino Coating Blend (Ready-to-Spray)		\$ 25.00	\$ 40.00	\$ 57.00
300	Metallic Pigment Blend (Ready-to-Spray)	\$ 17.25	\$ 26.00	\$ 42.00	\$ 59.50

Starter Colors

The Starter Colors are a group of pre-matched standard colors used primarily in the automotive market. These colors are designed as a starting point and can be inter-mixed or tinted with the respective color systems, or tinted with the 17 primary colors in the 200 series, 300 series, or 400 series blends.

WHITE	GRAPHITE	BLACK	YELLOW OXIDE	LEMON YELLOW	TANGERINE
ORANGE	RED OXIDE	SCARLET	BRIGHT RED	RUBY	BURGUNDY
BRICK	PURPLE	BLUE	GREEN	DARK BROWN	

The 400 Series pigment line is a correctly blended BASECOAT system designed for maximum coverage and feel. Pigments are blended with the **600 Flexible Basecoat System**. The 400 series pigment line must be top coated for performance, gloss & feel. Recommend the Premium Topcoats Crosslinked with 611 or 612 crosslinkers. Crosslinking a base coat system is not necessary.

Color Picker

Color Picker Spectro

The Color Picker Spectro is an affordable, handheld, Bluetooth-enabled device that can easily and accurately develop a starting color with little or no adjustments.

Works with any smart phone (I phone or Android)

Benefits of Color Picker Spectro

- > Match colors quickly with an easy-to-learn and operate solution
- > Excellent starting point for new colors, mitigating the risk of a bad color match
- > Small handheld device, easily stored in toolbox for on-site color matching ease.

The Color Picker works well with all of our pigment series (100 C pigments, 200 Rhino Coatings, 300 Pigment Blends and 400 Basecoat Pigment Blends)

Each

\$ 799.00

Color Picker Kit

The Color Picker Kit is an all inclusive set up with everything in it that you will need to learn how to use the Color Picker and Match Colors

Kit includes ColorReader Spectro and Scale

300 Series Pigment Blends

- 310 White 16oz, 320 Black 8oz, 311 Graphite 4oz,
- 330 Ochre Yellow 8oz, 334 Lemon Yellow 2oz, 340 Tangerine 4oz,
- 341 Orange 2oz, 350 Red Oxide 4oz, 352 Scarlet 2oz,
- 354 Bright Red 4oz, 355 Ruby 2oz, 356 Burgundy 2oz
- 358 Bick 2oz, 360 Purple 2oz, 370 Blue 2oz, 380 Green 2oz

628 Flattener 4 oz and 629 Brightener 4oz

Mixing Spatula Tool, 6 oz Jars / lids, White vinyl spray out strips.

Spray out strip of vinyl colored & numbered with one of the collection colors (2)

2 oz bottle of colors to correspond to above item.

Kit includes the following

- > How to use instructions
- > What the Color Picker does & doesn't do
- > Troubleshooting Techniques

Each

\$1,225.50

Furniture Systems

Leather Balm – Wipe-On Coatings System

The **Leather Balm** is a Ready-to-Use one coat system for automotive or furniture leathers. This system can be used as a clear coat to refresh the finish or add C-pigments and/or #557 pure dyes can be added for color adjustment. Recommend the C-pigment with a maximum of 10% and pure dyes at 3%. Gloss can be adjusted using the 628 flattener or the 629 brightener. If pure dyes are used, an additional crosslinked topcoat must be applied to ensure no color bleed.

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
503	Leather Balm -- High Gloss (Formerly 536)	\$ 12.50	\$ 21.00	\$ 32.00	\$ 42.00	\$ 63.00	\$ 115.00

Dye and Stain Colorants

Use pure dyes in basecoats and leather goods specialty coatings. Dye loading should be maximum of 5%.

When combining Dyes with "C" Pigments keep combined colorant loading to 8%.

Dyes are not recommend for use in automotive interiors due to the poor light fastness properties.

Code	Description	2 oz.	4oz	8 oz.	16 oz.	32 oz.
557	Dye Starter Kit [Contains Eight (8) 2 oz. bottles of colorants]	\$118.00

Specialty Leather Finishing Products

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
560	Neatsfoot Oil 100% Pure	\$ 6.00	\$ 10.00	\$ 15.00	\$ 20.00	\$ 36.00	\$ 60.00
561	Neatsfoot Oil 60/40 Blend	\$ 6.00	\$ 10.00	\$ 15.00	\$ 20.00	\$ 36.00	\$ 60.00
562	Neatsfoot Oil 50/50 Blend	\$ 6.00	\$ 10.00	\$ 15.00	\$ 20.00	\$ 36.00	\$ 60.00
<p>Neatsfoot Oil is an oil commonly used to treat leather goods. The characteristics of this oil is that it softens brittle leather and helps make it more supple. Neatsfoot oil will darken the color of leather. For less darkening use 60/40 or 50/50 blends.</p>							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
563	Rejuvenator	\$ 10.00	\$ 17.00	\$ 30.00	\$ 55.00	\$ 100.00	\$ 170.00
<p>The rejuvenator is an excellent coating for the flesh side of leathers, used to hold down the long fibrous hairs. Generally used when finishing both sides of a leather component . Can be used as a finish refresher for aniline and semi-aniline furniture and small leather goods.</p>							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
564	Veg Leather Basecoat Clear	\$ 10.00	\$ 17.00	\$ 30.00	\$ 55.00	\$ 100.00	\$ 170.00
<p>The Veg Leather Basecoat is specifically designed for un-finished veg tanned leathers. Can be pigmented with C pigments up to 10% load. Veg leathers should always have a primer coat (#603) applied before applying the veg base.</p>							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
565	Belt Coloring System Clear	\$ 10.00	\$ 15.00	\$ 25.00	\$ 40.00	\$ 70.00	\$ 110.00
<p>The Belt Coloring System is designed as a one-coat dipping process. To make a color, add #557 pure dyes to the #565 Belt coloring system (Max 8% due load). Place coating in flat pan. Dip the leather into pan until color is absorbed into the leather. Remove and wipe off excess. For best results, hang dry for several hours. Can be re-applied as needed to achieve final color.</p>

Base Coats & Primer Coats

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
600	Flex Base Coat	\$ 13.00	\$ 18.00	\$ 25.00	\$ 35.00	\$ 55.00	\$ 95.00
<p>Flex Base Coat is a coating designed for maximum flexibility and durability used mainly for automotive & aviation leather. Wipe or spray on before applying pigmented topcoat blends. Can be pigmented with "C" pigment up to 10%. Must be top coated with one of our premium topcoats.</p>							
601	Flex Base Coat -- Aerosol Spray Can					16 oz. can	\$ 30.00

603	Primer Coat	\$ 13.00	\$ 18.00	\$ 25.00	\$ 35.00	\$ 55.00	\$ 95.00
<p>Use for increased adhesion, flexibility and to even out surface absorption. Apply one or two <u>very light</u> coats. Can be applied by spray or wipe-on. <i>Do not over apply!</i> For best results, dry with hairdryer rather than air dry as this product bonds better when set with heat.</p>							
604	Primer Coat -- Aerosol Spray Can (formerly 608)					16 oz. can	\$ 30.00

Code	Description					
605	Coming Soon					

606	Stonewall Extreme Adhesion & Blocking Promoter					4 oz. Bottle	\$ 28.00
<p style="text-align: center;"><u>Excellent Adhesion Promoter</u> over oil stains and problematic areas. Works well as a blocking agent on oils and stains keeping them from migrating back to the surface. Wipe-on only. Apply very light coat only! Dry with low heat only. Longer dry time required.</p>							

Crosslinkers

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
611	Carbodiimite Crosslinker	\$ 21.00	\$ 32.00	\$ 52.00	\$ 90.00	\$ 125.00	\$ 245.00

Our "Carbo" is a great everyday, standard crosslinker used to give coatings the strength and performance characteristics required for most applications. Add 5% to the coating and use within 4 -6 hours.

The 4 -6 hours may vary depending on temperature and humidity.

Coating can be re-crosslinked 1 or 2 times before discarding coating.

Always store in original container.

One ounce of crosslinker will crosslink 32 oz. of coating @ 5% load.

Code	Description	4oz		
612	Isocyanate Crosslinker (High Performance)	\$ 25.00	1 oz. 4 pack	\$ 31.00

The Isocyanate crosslinker is a reactive crosslinker typically used in topcoats where high-performance coatings are needed. (Steering Wheel, Side Bolsters, Boat Cushions, Etc..) The isocyanate crosslinker will greatly increase the wear, scuff, flexibility and chemical resistance of the coating. Recommend adding 5% crosslinker to coating. Apply coating within 2-4 hours. Discard all un-used Isocyanate crosslinked coatings. **Do Not Re-crosslink coatings.**

One ounce of crosslinker will crosslink 32 oz. of coating @ 5%.

Make sure the container is closed tightly after each use.

Wipe off bottle top before closing lid to prevent top from sticking.

The Isocyanate Crosslinker is shipped from our plant packaged under nitrogen. This eliminates any air and moisture from the container, making sure no reaction has begun.

Once the factory seal is broken the crosslinker must be consumed with-in 14 days.

**Always store your crosslinkers in a cool dry environment away from extreme heat and cold.
Make sure the container is closed tightly after each use.**

Additives & Specialty Items

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
615	Clear Primer Coat for Fabric Re-dye	\$ 10.00	\$ 16.00	\$ 27.00	\$ 37.00	\$ 53.00	\$ 95.00
Used for increased adhesion and to even out surface absorption on Fabric Re-dyes. Spray one or two light coats. Do not over apply.							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
619	Silk Touch -- Feel Additive for Topcoats	\$ 14.00	\$ 22.00	\$ 30.00	\$ 40.00	\$ 68.00	\$ 112.00
Add up to 5% to the final topcoat to increase the hand / feel of the coating. Silk Touch will impart a smooth silky feel. Do not add to intermediate coatings as it may create inter-coat adhesion issues.							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
620	Soft Touch -- Feel Additive for Topcoats	\$ 14.00	\$ 22.00	\$ 30.00	\$ 40.00	\$ 68.00	\$ 112.00
Add up to 5% to the final topcoat to increase the hand / feel of the coating. Soft Touch will impart a smooth soft feel. Do not add to intermediate coatings as it may create inter-coat adhesion issues.							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
621	Rubber Feel -- Additive for Topcoats	\$ 14.00	\$ 22.00	\$ 30.00	\$ 40.00	\$ 68.00	\$ 112.00
Add up to 20% to the <i>final</i> topcoat to increase the hand or feel of the coating. Rubber Feel will impart a soft tacky / rubber feel to the coating. Intended to be used over door and console parts. Do not add to intermediate coatings as it may create inter-coat adhesion issues.							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
622	Slick Feel -- Additive for Topcoats	\$ 14.00	\$ 22.00	\$ 30.00	\$ 40.00	\$ 68.00	\$ 112.00
Add up to 5% to the final topcoat to increase the hand / feel of the coating. Slick Feel will impart a silicone like feel. <u>Never use on Steering Wheels.</u> Do not add to intermediate coatings as it may create inter-coat adhesion issues.							

Code	Description	4 oz.	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
High Coverage Pigment Blends are used as a base color to block or cover darker areas that need to be colored either a Lighter Shade or a Bright Red Shade. Apply matching color over this high coverage coating. Designed to reduce excessive film build-up. Must be Top Coated.							
623-40	Tangerine Pre-Coat Base Used as a high coverage base when re-finishing black leather to Tangerine Must Be Topcoated	\$ 12.00	\$ 20.00	\$ 35.00	\$ 50.00	\$ 90.00	\$ 168.00
624	High Coverage White Blend Use to block darker areas that need to be colored very light. Must be Top Coated.		\$ 20.00	\$ 35.00	\$ 50.00	\$ 90.00	\$ 168.00
625	High Coverage Red Blend Use to block darker areas that need to be colored very BRIGHT red color. Must be Top Coated.		\$ 20.00	\$ 35.00	\$ 50.00	\$ 90.00	\$ 168.00

Code	Description	2 oz.	4 oz.	8 oz.
626	Thickener	\$ 20.00	\$ 30.00	\$ 55.00
Used to change viscosity or thickness of water-based coatings. Always add small amounts at a time, only to small amounts of coating. Mix in well and stir slowly. Add to basecoats and topcoats to create a better wipe on coating.				

Additives & Specialty Items

Code	Description	2 oz	4 oz	8 oz	16 oz
627	Leveler	\$ 18.00	\$ 26.00	\$ 55.00	\$ 95.00
A leveler is used to help the flow out of the coatings on difficult surfaces. Add 1 -2 % in small amounts stirring well between additions. Adding excessive amounts of levelers will cause inter-coat adhesion issues.					

Code	Description	4 oz.	8 oz.	16 oz.	32 oz.
628	Flattener (Matting Agent)	\$ 12.00	\$ 20.00	\$ 38.00	\$ 50.00
Used to decrease gloss levels in topcoats and pigment blends. Add up to 10% and mix in slowly and thoroughly.					

Code	Description	4 oz.	8 oz.	16 oz.	32 oz.
629	Brightener -- Gloss Adjustment	\$ 12.00	\$ 20.00	\$ 39.00	\$ 50.00
Used to increase gloss levels in topcoats and pigment blends. Add up to 10% and mix in slowly and thoroughly.					

Cleaning and Leather Care Products

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
630	Green Cleaner Surface Prep	\$ 7.00	\$ 13.00	\$ 18.00	\$ 23.00	\$ 32.00	\$ 52.00
<p>This is a solvent-based prep solution used to remove embedded dirt and silicones from the surfaces to be refinished. This product breaks into the surface of cured urethane topcoats to create an excellent prepared surface. USE IN WELL VENTELATED AREA. AVOID BREATHING FUMES.</p> <p>FLAMMABLE NO AIR FREIGHT</p>							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
631	Hi-Lo Cleaner	24 oz. Spray Bottle	\$ 18.75			\$ 19.80	\$ 38.50
<p>This low suds cleaner is a mild, fast evaporating prepping solution and degreaser. Used for heavy dirt build-up. Use liberally with a #710 scrub pad. Good for cleaning & prepping sensitive surfaces that cannot tolerate excessive wiping and prepping. A great all-purpose non-flammable solvent-based cleaner and degreaser.</p>							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
632	Surface Prep - Odorless Solvent	\$ 5.25	\$ 10.00	\$ 17.00	\$ 24.00	\$ 32.00	\$ 50.00
<p>This is an odorless solvent-based prep solution used to remove embedded dirt and silicones from surfaces to be refinished Excellent at prepping directly around areas needing vinyl repairs and is incredibly effective at attacking certain hard to prep surfaces where normal prep solutions will not work. A very slow evaporating product. Be careful not to let product seep through to the back side of the leather. A good prepping solution where solvent odors could be an issue like homes or confined spaces.</p>							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
633	In Between Cleaner / Prep / Degreaser Wipe-off Solution	\$ 5.25	\$ 10.00	\$ 17.00	\$ 24.00	\$ 32.00	\$ 60.00
<p>This is a water / solvent base prep solution used to remove embedded dirt and silicones from the surface Cleaner Degreaser and Prep used during the repair process after the initial cleaning and prep steps and all the way through until the end of the refinishing part of the repair USE IN WELL VENTELATED AREA. AVOID BREATHING FUMES</p>							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
634	Hogwash -- Odor Eliminator				\$ 45.00	\$ 80.00	\$ 140.00
<p>All natural, spray-on product designed to eliminate offensive odors in enclosed environments. Excellent for smoke, mildew and pet odors.</p>							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
635	RC Heavy - Multi-Surface Cleaner <u>Concentrate</u>						\$ 16.50
<p>Excellent all purpose cleaner and mild degreaser for leather, vinyl, plastic, carpet and fabric. This concentrated formula must be cut with 3 quarts of water, which makes one gallon of cleaner.</p>							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
636	High Suds -- Multi-Surface Cleaner	24 oz. Spray Bottle	\$ 12.00			\$ 12.00	\$ 25.00
<p>Excellent all purpose cleaner for leather, vinyl & plastic surfaces. High sudsing action and light aroma. For best results, use with #710 scrub pad. READY-TO-USE formula</p>							

Code	Description	4oz	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
637	Oil Extractor FLAMMABLE NO AIR FREIGHT					\$ 25.00	\$ 42.00
<p>Used to remove body oil from surfaces such as furniture and steering wheels. The thick paste must be applied on thick and allowed to dry for several hours up to 12 hours per application. Complete oil extraction may take multiple applications.</p>							

Cleaning and Leather Care Products

Code	Description	1 oz.	2 oz.	4 oz.
638	Ink Remover FLAMMABLE NO AIR FREIGHT	\$ 18.00	\$ 28.00	\$ 48.00
Used to remove ink stains from Leather Seating (Aircraft, Automotive and Furniture). In addition to removing the stain this product may remove upper coatings. Color restoration may be required after use.				

Code	Description	4 oz.	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
639	Red Stain Remover - Single part no mix formula	\$ 5.00	\$ 8.00	\$ 14.00	\$ 22.00	\$ 28.00	\$ 46.00
Used to remove red stains from carpet and cloth seats. Use with household Iron.							

Code	Description				
640	New Product Coming Soon				

Code	Description	4 oz	8 oz.	16 oz.	32 oz.	128 oz.
641	Leather & Vinyl Surface Protectant / Conditioner	\$ 12.00	\$ 20.00	\$ 30.00	\$ 60.00	\$ 150.00
Apply to clean surfaces to help repel dirt & grime and resist soil build-up. It can be applied to freshly coated surfaces in as little as 30 minutes after refinishing. Apply with a soft sponge or cloth. Lightly buff with soft cloth after drying.						

	<p style="text-align: center;">Odor Tablets</p> <p>Used to treat foul-smelling interiors. Great for pet and smoke odors. Tablet comes with a cup for activation. Treatment time in the vehicle is between 3 and 6 hours depending on the severity of the odor. One-Time-Use kit.</p>					
642	Odor Treatment Kit- water & cup activation method.				20 gr Tablet	\$ 10.50

644	Odor Treatment Tablet 4-gram odor treatment tablet with 24 oz. spray bottle.				4 gr Tablet with 24 oz. spray bottle	\$ 10.00

Code	Description		
645	Stain Blocker	8 oz. Jar	\$ 32.50
This high solids white coating is designed to cover stains in leather & vinyl and keep the stain from wicking back up through the refinishing coats. Excellent for tire marks on rear leather cushions and ink stains. Because of this product's thickness, surface texture may become less defined.			

Code	Description	4 oz.	8 oz.	16 oz.	32 oz.	64 oz.	128 oz.
646	Isopropyl Alcohol 91%	\$ 3.00	\$ 5.00	\$ 8.25	\$ 15.00	\$ 32.00	\$ 55.00

Repair Products

Code	Description	4 oz. Jar	8 oz. Jar
651	Black Crack Filler Air Dry	\$ 17.00	\$ 28.00
652	Grey Crack Filler Air Dry	\$ 17.00	\$ 28.00
653	White Crack Filler Air Dry	\$ 17.00	\$ 28.00

Flexible repair product designed for filling light scratches & minor scrapes and voids on the surfaces of leather, vinyl and plastic up to 1/16" thick.
Very sandable and fast drying.

Code	Description	4 oz. Jar	8 oz. Jar
654	Beige Deep Flex Fill Air Dry	\$ 18.00	\$ 30.00
655	Black Deep Flex Fill Air Dry	\$ 18.00	\$ 30.00

A unique blend of resins designed for repairing tears and filling voids on leather and vinyl surfaces. Very Strong and Flexible. Sands easily.
Using several medium coats and drying between each coat, you can fill large deep scratches and voids quickly.

Heat Cured Repair Compounds (HCC)

Code	Description	4oz	8 oz.
664	S-Compound-Sandable HCC (Lt. Brown Tint)	\$ 17.00	\$ 26.00

This HCC is best to use where light sanding is desired.
For proper performance the HCC must be baked all the way through.

Code	Description	4oz	8 oz.
665	Deep Fill- Heat Cured Repair Compound (Yellow Tint)	\$ 16.00	\$ 24.00

Used for thick molded vinyl and where other deep filling is needed like dashboards and armrests. The key benefit of this compound is its bulk filling properties.
For proper performance the HCC must be baked all the way through.

Code	Description	4oz	8 oz.
668	Soft Flex Heat Cured Repair Compound (Blue Tint)	\$ 16.00	\$ 24.00

This blue heat cure is a very soft flexing, good graining compound great for leather-like vinyl's.
Excellent to use where the soft leather-like feel is needed
The main characteristics of this HCC is its flexibility and softness.
For proper performance the HCC must be baked all the way through.

Code	Description	4oz	8 oz.
675	Standard -- Heat Cured Repair Compound	\$ 16.00	\$ 24.00

This is our thinnest viscosity heat cured compound.
Ideal for light skin coats or fine detail work.
For proper performance the HCC must be baked all the way through.

Repair Products

Code	Description	2 oz.	
676	Red Base Fill -- Heat Cure Repair Compound	\$ 16.00	
<p>This red heat cure product designed to be packed and molded into damaged areas in a single application, especially in molded & shaped areas. Longer cure time is required. For proper performance the HCC must be baked all the way through.</p>			

Code	Description	4oz	8 oz.
680	Thick Heat Cured Repair Compound	\$ 16.00	\$ 24.00
<p>This extra thick HCC is our popular all-purpose compound. For proper performance the HCC must be baked all the way through.</p>			

Code	Description	2 oz.	4oz
681	Colored -- Heat Cured Compound	\$ 14.00	\$ 22.00

Best used as a top layer over other heat cured compounds. Available in fourteen (14) colors. Custom colors available. Colorants are blended into the 680 Thick Compound.

The compound must be fully baked all the way through for proper performance.

Code	Description	2 oz.	4oz
682	Barrier Coat FLAMMABLE NO AIR FREIGHT	\$ 6.00	\$ 9.25
<p>This solvent-based sealer is used strictly over cured repair compounds. Once the repair is complete, apply a coat of Barrier Coat over the repair to keep any residual oils left down and lifting up to the color coatings. Apply with gloved finger.</p>			

Repair Products

Code	Description	4oz	8 oz.	16 oz.	32 oz.
690	Spray Texture	\$ 15.00	\$ 22.00	\$ 34.00	\$ 58.00
691	Spray Texture -- Aerosol Spray Can	16 oz. Spray Can		\$ 30.00	

Used to blend in repairs with surrounding areas. Apply with mouth atomizer, Preval or spray gun.
Size of droplets is controlled by varying air pressure and distance from surface.

Code	Description	4oz
694	Clear Leather Adhesive Sealer	\$ 20.00

Use this water-based product to hold down and bond small cuts and slices.
Apply over sueded areas to create a stronger surface to refinish over.
Air-dry product. Lightly sandable. Strong and Flexible.

Code	Description	2 oz.	4oz
695	Leather and Fabric Glue	\$ 6.50	\$ 9.50

This white water-based glue works great for attaching leather sub-patches & bonding torn pieces of leather. It has very fast grab properties great for quickly laying down torn flaps & cuts. It's also excellent for burn holes in fabric when mixed with fibers to form a thick paste.
Dries Clear and remains extremely flexible.

Code	Description	40 gram tube	\$ 12.00
657	JQ-2118 Welders Glue		

Clear & thick contact cement adhesive in a tube for leather, vinyl, plastic, and many other surfaces. Very Flexible. Not sandable. Not a filler.
Use to bond most surfaces once cleaned and both sides are coated with a thin coat of cement. Allow to air dry then press both sides together for a fast, strong bond.

Code	Description	Each	\$ 9.35
692	POWER GEL- CA 20 gram Metal Tube		
696	Super Glue -Thick CA 1 oz. Plastic Bottle	Each	\$ 8.75

These Super Glues (CA's) are used to fill small holes and voids on plastic and non-flexing vinyl. They will not run on vertical surfaces.

Code	Description	Each	\$ 15.00
693	Grip Kicker Aerosol 5 oz. can		

Apply light coats over Super Glues to speed dry times.

Tools, Containers & Closures

974	Starter Color Ring *				
<p>Set of color swatches of our Starter Colors for automotive color matching. ST-01 through ST-14. These are carefully selected for you to be able to make easy adjustments to by intermixing them or adjusting with White, Black, Yellow Oxide, Red Oxide, and Dark Brown Blends.</p> <div style="text-align: right; margin-top: 10px;">  <table border="1" style="margin-left: auto; margin-right: 0;"> <tr> <td style="padding: 5px;">Each</td> <td style="padding: 5px; text-align: right;">\$ 25.00</td> </tr> </table> </div>				Each	\$ 25.00
Each	\$ 25.00				
<p>*The Starter Color matching system is a very easy way to match colors with just some basic color matching knowledge.</p>					

Pre-Matched Color Options

1. Select a color from resource books for us to match

If you have access to a resource book such as GAHH, Detroit or Coast-To-Coast, you can give us the sample information for the color you would like matched and we can make it.

2. Send us the color you would like matched

- a. Mail in a sample of the color you would like matched - The sample does not have to be leather or vinyl.
- b. Spray a Leneta card with a color you currently use and mail it to us
Be sure to apply 5 -6 coats so we can accurately measure the color sample

Color Matching Fee \$28.00 per color
